The state-of-the-art of developer tools to build business-intelligent apps on RHPAM v7

Eder Ignatowicz
Tech Lead

Alex Porcelli
RHBA Architect

How to win the Developers?

(or, at least, how to increase the odds)

Win in their habitat

Augment the tools that developers already use and love, removes friction and helps adoption.

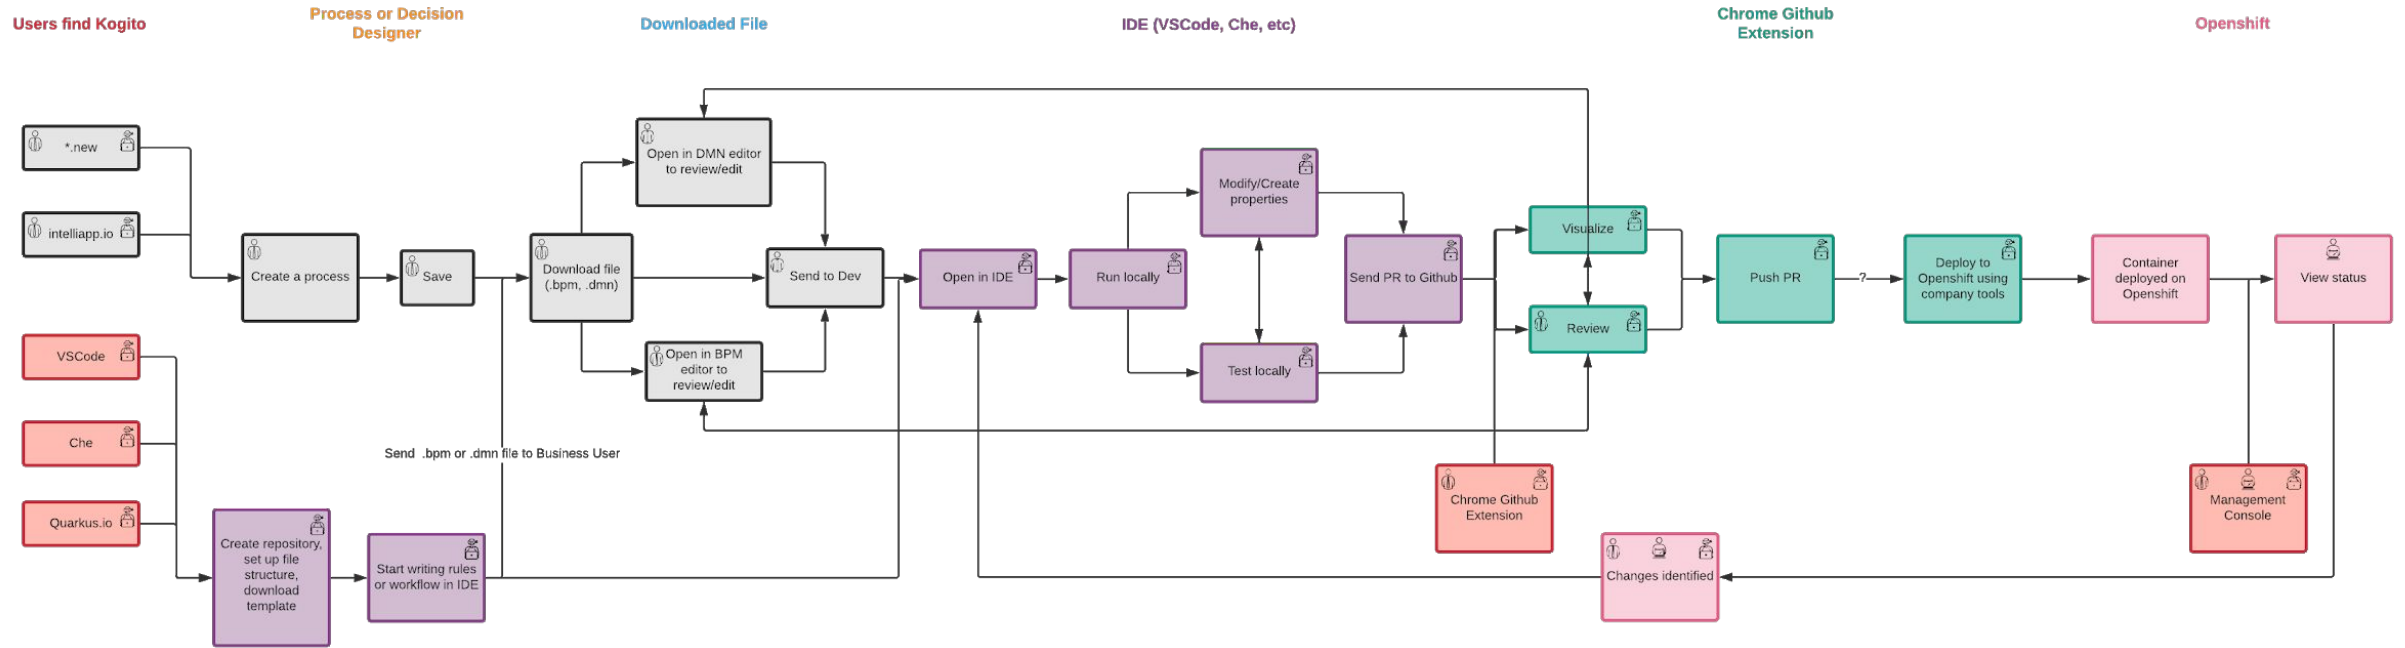

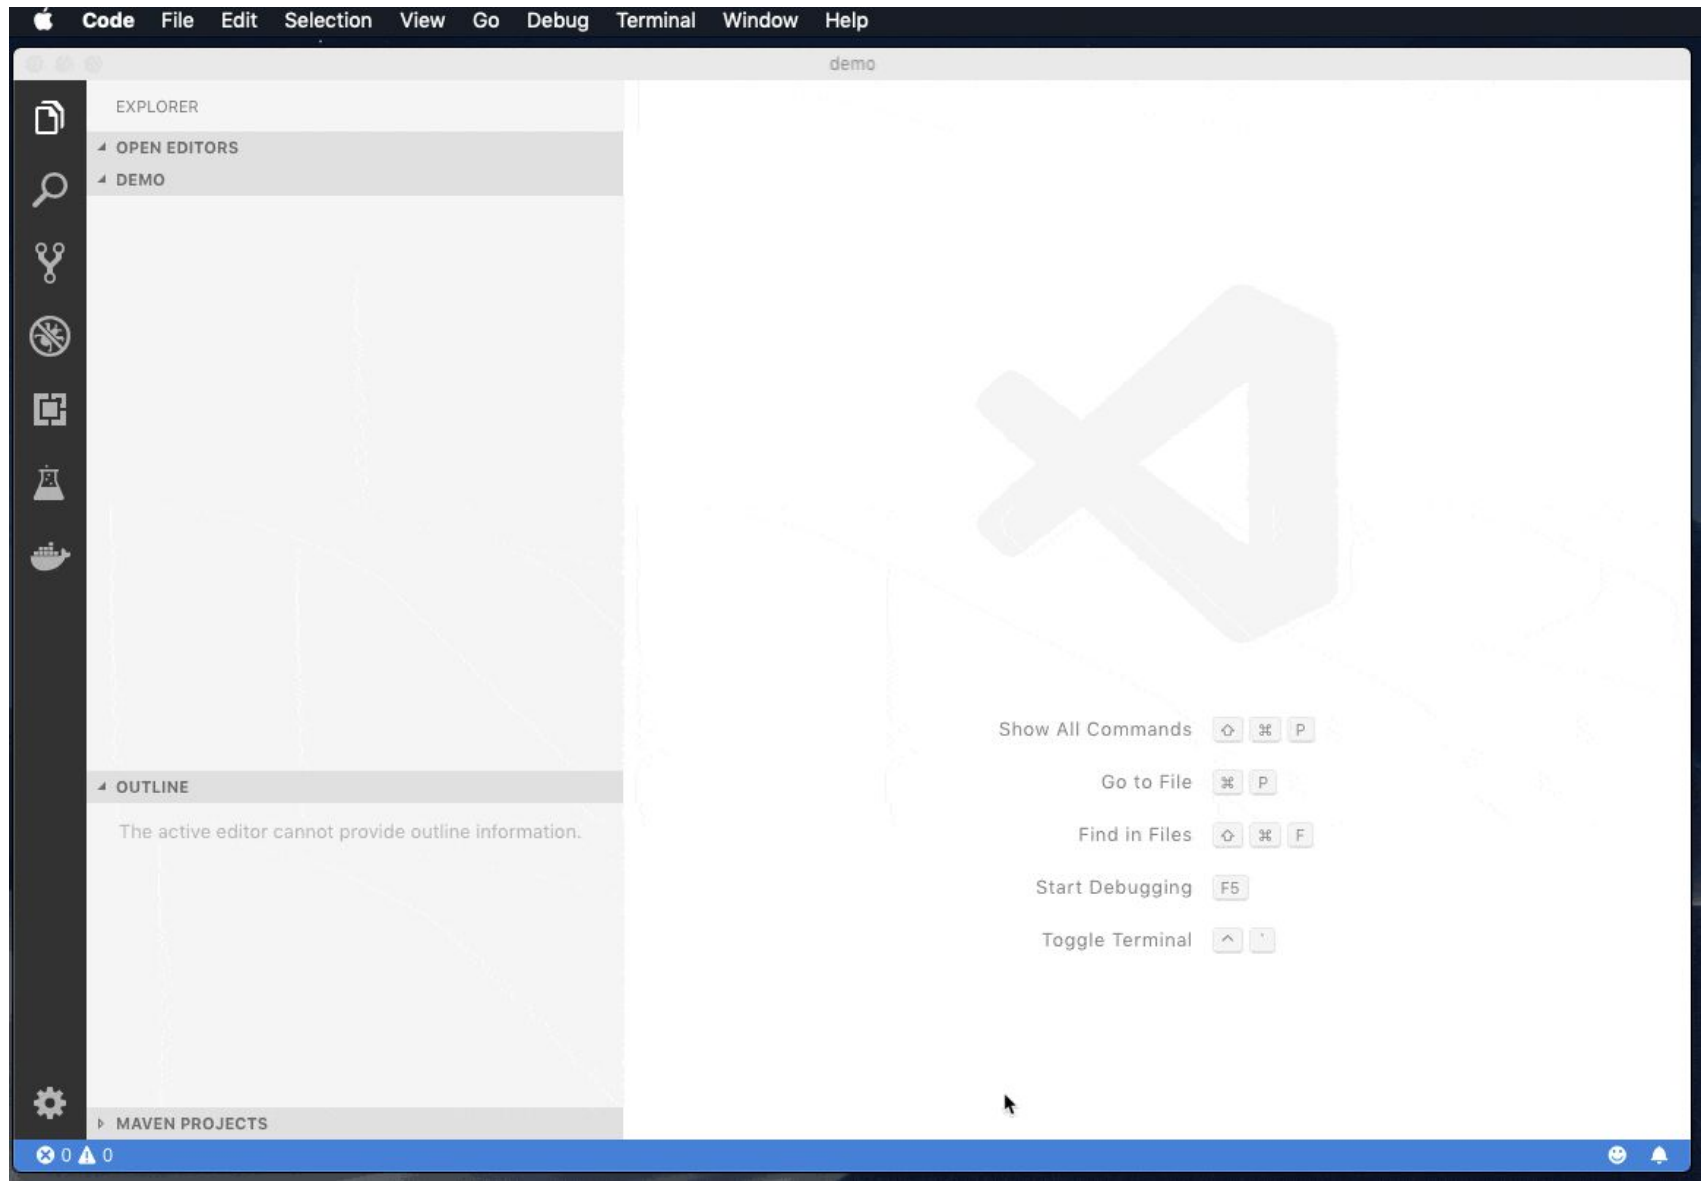

Brand new Dev Tools

On Kogito initiative, we have a lot of room to innovate on our Dev tools, creating new channels that created a whole new ecosystem and enabled a lot of brand new use cases.

These new tools are not of exclusive use of kogito projects. They can be used to develop business assets on RHPAM v7.

Channels

Proposed changes for this demo! #2
